## **CSCI Consulting Awarded Mentor-Protégé Program**

Partnering with Hewlett Packard Enterprise through the Department of Defense

### **Indianapolis, Indiana (18 January 2016)**

CSCI Consulting, an award-winning woman-owned consulting firm, in partnership with Hewlett Packard Enterprise (HPE) has been approved for participation in the United States Department of Defense's Mentor-Protégé Program. Effective 28 September 2015, this partnership will be for a three (3)-year period, with HPE serving as mentor and CSCI Consulting serving as protégé.

Through this Mentor-Protégé Program, HPE will be able to coach CSCI Consulting in targeted business areas in order to improve its capabilities to compete on an expanded scale in the Federal contracting market. The strategic partnership will serve as a catalyst for CSCI Consulting's continued success as a small business by providing guidance, training, and certifications to enhance its company infrastructure. The Department of Defense Mentor-Protégé Program is considered extremely dynamic and beneficial for small business development, and HPE has received multiple Federal Government awards for the success of their Mentor-Protégé partnerships.

"CSCI is thrilled to receive the Mentor-Protégé award with HPE through the Army," said Michele Meyer, President of CSCI Consulting. "As a growing small business, this award comes at a perfect time, since we are looking towards our future after graduation from the 8(a) program. The Mentor-Protégé partnership will provide us with both invaluable coaching from HPE and increased visibility within the Army community."

### **About CSCI Consulting**

Founded in 2002, CSCI Consulting is a nationally recognized and established woman-owned consulting firm specializing in financial management and information technology solutions for federal, state, and commercial clients nationwide. Headquartered in Indianapolis, Indiana next to the third-largest federal building, the Major General Emmett J. Bean Federal Center, CSCI Consulting employs talented associates in collaborative roles with customers across the country. We are consistently recognized for our high customer satisfaction by focusing on the best value for our clients. Our customers engage our services based on our ability to quickly mobilize skilled professional resources, form adaptable project teams that meet aggressive timelines, and our commitment to rapidly respond to changing requirements and organizational shifts.
