

# Get to know CSCI

We're a nationally-recognized team of  
problem-solvers ready to fully engage and  
support your mission for the long haul.

---

**At CSCI**, we have built our business on mobilizing highly-skilled teams to meet aggressive deadlines and ever-changing situations. Our diverse management consulting, financial management, and enterprise IT offerings provide custom solutions and end-to-end support to fit your specific needs when they arise.

Our clients come first. Every single time. We mobilize quickly, adapt and scale, and respond to your needs right away. At CSCI, we are at the cutting-edge of service offerings for government and commercial markets.

## OUR SERVICES

We bring together experts in finance and IT to understand complex systems, interpret the data within, and propose improvements and controls. Through proven management approaches and innovative technology solutions, our project teams deliver superior customer service.

---

### Management Consulting

---

We offer extensive capabilities in project life-cycle management support and analysis, focusing on organizational needs and strategic direction in order to meet key goals. We ensure strategic plans for business transformation are properly developed and efficiently implemented, and are instrumental in facilitating organizational change and providing executive-level coaching and advisory support.

- ▶ Acquisition and Program Management
- ▶ Business Process Reengineering (BPR) and Standardization (BPS)
- ▶ Earned Value Management (EVM)
- ▶ Enterprise Integration
- ▶ Independent Verification and Validation (IV&V)
- ▶ Knowledge and Change Management
- ▶ Training Support Services

---

## Enterprise IT

---

We provide end-to-end project life cycle analysis and support for many of the languages, platforms, and tools used in public and private sectors. From development to deployment to system maintenance and sustainment, we have made significant contributions to improve technical environments through customer partnerships to ensure the highest level of project success.

- ▶ Application Lifecycle Development: Analysis, Design, Development, Testing, and Implementation
- ▶ Application Modernization, Integration, Migration, and Sustainment (including from legacy systems to ERPs)
- ▶ Big Data Analytics
- ▶ Business Intelligence (BI)
- ▶ Cyber Security
- ▶ Data Warehousing, Integration, and Migration

- ▶ IT Program, Project, and Portfolio Management
- ▶ Pre-to-Post ERP management integration and support, including DAI, GFEBS, GFEBS-SA, Navy IPPS, DRAS2, and DEAMS
- ▶ Systems Engineering and Administration
- ▶ Test and Evaluation Services
- ▶ Web and Mobile Application Development

---

## Financial Management

---

We support multiple U.S. Department of Defense (DoD) entities in achieving their financial transparency and audit readiness, remediation, and sustainment goals within accelerated time frames. As a trusted business partner, we assist in a range of successful financial initiatives, including budget generation and execution, supporting enterprise-level federal accounting and payroll systems, performing financial reconciliations, testing internal controls, and tracking and recording financial activities for executive-level management.

- ▶ Audit Readiness, Remediation, and Sustainment Support
- ▶ Cost Management and Analysis
- ▶ Enterprise Risk Management (ERM)
- ▶ Existence and Completeness (E&C) for Property, Plant, and Equipment (PP&E)
- ▶ Financial Forecasting, Execution, and Analysis
- ▶ Financial Tracking and Monitoring
- ▶ Financial Reconciliations and Data Mining
- ▶ Governance, Risk, and Compliance (GRC)
- ▶ Managers' Internal Control Program (MICP)
- ▶ Planning, Programming, and Budgeting Execution (PPBE)

# CSCI Spotlight
